ALMANSUR NURTAZIN

Toronto, ON • (437) 435-9513 • anurtazi@my.centennialcollege.ca

ANALYTICAL • ADAPTABLE • COLLABORATIVE

SUMMARY OF QUALIFICATIONS

Motivated Software Engineering Technology - Artificial Intelligence student with experience in backend development, requirements engineering, and software design

- Applied knowledge of **Python, C#, SQL,** and **Git** through software development coursework and applied technical projects
- Knowledge of the **Software Development Life Cycle (SDLC),** including **Agile** and iterative methods, through team-based academic and professional projects
- Experience translating requirements into **functional specifications** and technical design documentation, including **UML** use case, class, and sequence diagrams
- Hands-on backend development experience with **Python**, **RESTful APIs, SQL** and relational databases during a professional software engineering internship
- Working knowledge of **Linux/Unix** environments, **Bash** scripting, and web technologies (**HTML, JavaScript**), with **iOS application** development in **Swift/SwiftUI**

Soft Skills: Leadership, Communication & Collaboration, Adaptability, Initiative & Accountability

Technical Skills: Python, SQL, C#, Swift/SwiftUI, JavaScript (Familiar), Git, Bash, Microsoft Azure, Microsoft Office

Languages: Kazakh (Native), Russian (Fluent), English (Professional Working Proficiency)

Training & Certificates: AI & Software Engineering Internship Certificate, Kazakhstan R&D Solutions (2026); 5-Year IT & Design Training – SQL, Adobe Creative Suite, HTML (Small Academy ShaG, Almaty)

EDUCATION

Software Engineering Technology – Artificial Intelligence (Co-op), Advanced Diploma *Sept. 2025 – Apr. 2028 (Expected)*

Centennial College, Toronto, ON

- GPA: 4.34 / 4.5
- **Relevant Courses:**

Programming 1 (Python)
Programming 2 (C#, OOP)
Software Engineering Fundamentals (SDLC, Agile)
Software Requirements Engineering (SRS, UML)
Introduction to Database Concepts (SQL)
Unix/Linux Operating Systems (Bash)

RELATED EXPERIENCE

AI & Software Engineering Intern *June – Aug. 2026*

Kazakhstan R&D Solutions – "Aman AI" Project, Almaty, Kazakhstan

- Completed a **360-hour AI & Software Engineering internship**, contributing to the development of the **Aman AI platform**
- Developed and fine-tuned **AI components**, supporting **natural language processing (NLP)** workflows and prompt management
- Built scalable backend services using **Python**, **RESTful APIs**, **SQL**, and **relational databases**
- Managed **Linux-based** environments using **Bash** scripting and used **Git** for version control and collaborative development
- Collaborated with cross-functional teams on **software architecture, code reviews,** and **system integration** within an Agile development environment

ACADEMIC PROJECTS

AI Parking Smart System – SRS & System Design *Jan. – Apr. 2026*

Centennial College (Team Project) | Stack: Python, Node.js, PostgreSQL, Azure, UML

- Co-authored a **36-page Software Requirements Specification (SRS)** with a 5-member team, defining **18 functional and non-functional requirements** across 3 subsystems for an AI-powered smart parking system
- Modeled system architecture using **UML** use case, class, and sequence diagrams to represent Driver Interaction, Parking Management, and Enforcement & Monitoring subsystems
- Proposed a cloud-based architecture (**Node.js**, **React/React Native**, **PostgreSQL**, **Azure**) to support real-time parking availability and license plate recognition
- Developed **12 Python domain classes** (User, Driver, ParkingSession, Payment, PricingRule, etc.) to validate the object-oriented design

Quit-Smoking Tracker – iOS Application *Dec. 2023 – May 2024*

Independent Project, Small Academy ShaG, Almaty, Kazakhstan | Stack: Swift, SwiftUI, REST API

- Designed and developed a **SwiftUI**-based **iOS application** allowing users to track smoking cessation progress, including days smoke-free, nicotine avoided, and money saved
- Integrated a weather API and native photo gallery access to increase daily user engagement
- Delivered the application as a final course project designed to support a real-world goal of quitting smoking

EXTRA-CURRICULAR EXPERIENCE

Leader in Training (LIT) Program *Summer 2024*

Betsy-Jeff Penn 4-H Educational Center, North Carolina, USA

- Selected to lead groups of younger campers through outdoor activities, educational projects, and team challenges in a residential leadership program
- Coordinated with fellow leaders to plan group activities, manage group dynamics, and respond to individual camper needs
- Strengthened communication, adaptability, and initiative while fostering a positive and inclusive environment for all participants

Volunteer Field Researcher – Scientific Expedition *Summer 2022*

Kazakh National University, Faculty of Biology, Kazakhstan

- Selected as the youngest volunteer among university professors, PhD researchers, and biology students for a field-based scientific expedition across multiple regions of Kazakhstan
- Assisted the research team with the collection, documentation, preservation, and preliminary description of biological samples for scientific analysis
- Followed established sampling protocols and procedures in remote field environments, adapting quickly to the pace of an experienced research team
- Organized field records and prepared formal sample descriptions, strengthening protocol adherence, documentation, and attention to detail
